**Subject:** Cleanup the Willamette

The EPA is foolish to tell small companies and families they must foot a big bill for the river cleanup when many of them struggle. This is especially true for small companies located near the Superfund site that had no hand in creating the pollution problem.

The EPA should come out with a plan that's good for the river and the fish. But you should also make sure that the plan is flexible and isn't so expensive that it drives out the companies that supply the blue-collar jobs our city needs.

Our harbor is a big part of our economy. Please pick a plan that is good for our workers.

Sincerely,
